As a male photographer

I see the female form as a canvas of endless possibilities. My goal is to bring your vision to life in the most glamorous way possible, using a completely personalized approach to fit your unique needs and desires. I am known for my attention to detail, which some might call an obsession but I prefer to think of as the difference between beautiful and perfection.

Before your session, we'll connect one-on-one via phone, Skype, or in-person to plan a custom portrait session that fits your tastes and desires. On the day of your session, you'll be pampered with a full makeover by one of our talented makeup and hair professionals. Relax and unwind before your 2-4 hour glamour or boudoir session, which includes the time for your makeover.

During the session, I'll guide you through poses and help you feel confident and beautiful. Think of it as the ultimate girls' day out. You're going to look and feel amazing!
